PHOTO

Summary	Abhishek has around 1 year and 10 months of technical experience in development in Asp.Net, VB.Net, MS-SQL database and Oracle database. He has experience in maintaining and executing the .NET test automation scripts as well. He has programming knowledge in various languages like Python, Java, Asp.Net.

Role History	- Software Engineer- Current - Jr. Software Engineer – September 2019 to September 2020 - Project Trainee – June 2019 to September 2019

Education	- B.E., Computer Science and Engineering, RGPV [2015-2019] 12th, Science, CBSE [2014] 10th , CBSE [2011]

Core competencies/ skills	Category	Primary skills	Secondary skills
	Verticals	Banking	UTILITIES
	Domains	Python, Java, .NET, C# , Android	C, C++
	Tools & Techniques	Android Studio, MS Visual Studio, Oracle SQL Developer, .NET MVC	Pycharm
	Databases	MS SQL, Oracle SQL	MySQL
	Bug/Issue-Tracking System	GitHub, TFS.	-
	Programming skills	Python, Java, .NET, C# , Android	C++, C#
	Operating System	Linux, Windows	Mac

Expertise	- Competitive Coding in Python. - Development using MVC framework. - Creating Database scripts in both Oracle and MS SQL. - Worked on the front-end and back-end using oracle. - Work experience on TFS.

Experience Summary	- Test automation code fixing of Coded UI test scripts by running and debugging the test scripts - Identified a large number of issues using .NET technology to correct 50+ test cases - Scripting for running MSSQL query to create database objects. - Worked on Oracle to MS-SQL migration. - Worked on Introduction of new Bank Charge in Bank. - VB.Net Code changes. - Oracle DB Script creation - Oracle Package Body and Structure modification. - Worked on Removal of LIBOR RATE from Bank and introduction of new rate code. - Oracle DB Script Creation. - Oracle Package and Procedure Update.

PROFESSIONAL EXPERIENCE

Project – Oracle to MSSQL Migration

Role: Developer

Project Description: Migrate database from Oracle Db to MS-SQL db.

Key activities performed: Development using SSMA & SSMS and MS-SQL query to create database objects.

Technology/Skills/Tools used
- Tools: Oracle SQL Developer Client, SSMA, SSMS
- Technologies: Oracle SQL, MS-SQL
- Skills: Development

Project – Bank Charges

Role: Developer

Project Description: Introduction of new Bank Charges.

Key Activities Performed: Development using Visual Studio, Oracle SQL Developer and Notepad++ for:
- Visual Studio for existing code changes.
- Oracle SQL Developer for query of Database Objects.

Technology/Skills/Tools used
- Tools: Oracle SQL Developer, Visual Studio, Notepad++
- Technologies: Oracle SQL
- Skills: Development

Project – NON-LIBOR TRANSITION

Role: Developer

Project Description: Removed Libor Rate from Bank and Introduced New Rate Code.

Key activities performed: Development using Oracle SQL Developer and Notepad++.
- Oracle SQL Developer for query of Database Objects.

Technology/Skills/Tools used
- Tools: Oracle SQL Developer, Notepad++
- Technologies: Oracle SQL
- Skills: Development
